

EMILY WU

Davis, CA | tzuyu520@gmail.com | emilywu.website

EDUCATION

University of California, Davis | B.A. Design, Minor in Communication | Expected December 2027

EXPERIENCE

Skydea | UI/UX Design Intern

Jun 2026 - Aug 2026, Tokyo, Japan (Remote)

- Evaluated four core workflows (onboarding, home, reading/listening, and vocabulary) in Bento, a Japanese-language learning app, through user interviews and **usability testing**, identifying navigation and comprehension issues
- Redesigned all four workflows in **high-fidelity Figma**, clarifying calls to action and adding proficiency-appropriate content to resolve the issues identified in research
- Built an interactive Replit prototype of the redesign, applying **accessibility** considerations and design choices intended to strengthen learner motivation

Design Interactive | Product Designer (Best Overall Award)

Apr 2026 - Jun 2026, UC Davis

- Designed the first-time **user experience** for ThreadIt, a 0-to-1 wardrobe app for budget-conscious students, defining closet filters, wear counts, laundry status, wishlists, and discovery
- Designed reward mechanics and progress cues to support engagement, then **tested the prototype** with five students and revised flows based on their feedback
- Partnered with engineering through high-fidelity **Figma handoff** to prepare the design for implementation

#Include at Davis | UI/UX Designer (Real-Client Website)

Jan 2026 - Jun 2026, UC Davis

- Owned the alumni-page experience on a real-client website for a local clinic organization, working within a **cross-functional team** of 8 designers and 7 developers
- Synthesized client goals and **user research** into a persona, user flows, and wireframes shaping the page's information architecture
- Created reusable, on-brand components to strengthen newsletter and alumni-story discoverability, and supported **developer handoff**

LEADERSHIP

#Include at Davis | Design Team Lead

Sep 2026 - Present, UC Davis

- Selected to **lead 6 designers** and partner with the technology team on an upcoming client project planned for public release, coordinating project scope, design critiques, cross-functional collaboration, and developer handoff

ADDITIONAL PROJECT

Ripple | Product Designer | FigBuild 2026 Competition

- Co-designed an Apple Watch and iPhone concept with one teammate during a three-day competition sprint, translating conversational turn-taking cues into adjustable haptic feedback for people with ADHD and autism

SKILLS AND TOOLS

Design & Research: Product design, interaction design, UX research, interviews, usability testing, user flows, wireframing, high-fidelity prototyping, visual design, accessibility, information architecture

Tools: Figma (Auto Layout, components, variants), Adobe Illustrator, Photoshop, Framer, Replit, Notion, HTML/CSS

Languages: Mandarin Chinese (native), English (fluent)
